Take the Freight Survey!

When you think about it, the efficient movement and delivery of freight affects us all. It impacts the availability of products, the length of time it takes to get them to us, and the prices that we pay. As we update central Indiana's Regional Freight Plan, we invite you to share your thoughts by participating in our [Regional Freight Survey](#). It's quick and easy, and survey results will be used in developing recommendations for enhancing our regional freight network. Visit [the project website](#) for more information on the process, timeline, and the survey.
